

EUROPEAN SOLIDARITY CORPS

Corrigendum to the 2020
European Solidarity Corps Guide

CORRIGENDUM TO THE 2020 EUROPEAN SOLIDARITY CORPS GUIDE

This Corrigendum comprises changes related to:

- Quality Label
- Volunteering

All the changes are reflected in the version 2 of the 2020 European Solidarity Corps Guide, available on the European Solidarity Corps website of the European Commission.

Changes related to Quality Label

Under "What are the criteria used to assess a Quality Label" – Page 20

Removal of "Duration – The whole duration of the programming period (2018-2020)". The validity of the Quality Label is already covered under "How does it work" on page 16.

Changes related to Volunteering

Under "Volunteering" – Pages 24

The following text :

NB: For individual volunteering activities, while organisations need to be holding a valid Erasmus+ accreditation or Quality Label at the start of the activities they are involved in, in the case of host organisations, they must also have submitted the application for Quality Label prior to the call deadline. In all cases, the applicant organisation must hold a valid Erasmus+ accreditation or Quality Label at the application deadline.

Was amended as such:

NB: For individual volunteering activities, organisations involved as partners in projects need to be holding a valid Erasmus+ accreditation or Quality Label at the start of the activities they are involved in. It is especially important that they submit the application for Quality Label at least 2 months before the start of the activity. For application purposes, host organisations that will be identified in the application form will need to have at least submitted their Quality Label prior to the call deadline. In all cases, the applicant organisation must hold a valid Erasmus+ accreditation or Quality Label at the application deadline.
